We thank all sponsors. The GCA initiative is possible thanks to generous educational grants from Clovis, ImmunoGen, Merck/Pfizer Alliance, Roche and Tesaro.
Programme

THURSDAY, NOVEMBER 8

15:00–15:30 Welcome coffee

15:30–16:30 Session I
15:30–15:50 Genomic signatures: appeal and limits
   Charlie Gourley, United Kingdom
15:50–16:10 What is the role of Epigenetics in diagnosis and treatment of gynecologic cancers?
   Heidi Fiegl, Austria
16:10–16:30 Technical problems in organizing a multicenter translational research
   Delia Mezzanzanica, Italy

16:30–17:00 Coffee break

17:00–18:30 Workshop: Main barriers for incorporation of TR into a clinical trial
   Workshop in 4 small groups
   ∆ Informed consens
   ∆ Funding
   ∆ Tissue banking
   ∆ Quality assurance and interpretation of tests

19:30–22:00 Dinner for all participants

FRIDAY, NOVEMBER 9

08:00–09:00 Session II – Statistics in clinical trials
08:00–08:20 Interpretation of results of survival analysis, what is power, when multivariate analysis is correct
   Roldano Fossati, Italy

08:20–08:40 Problems and possibilities with [Co-primary] endpoints
   Mansoor Raza Mirza, Denmark

08:40–09:00 How to incorporate biomarker into the statistical plan
   Gennaro Daniele, Italy

09:00–10:30 Workshop: Critical analysis of the statistical analysis of a recent paper
   Workshop in 4 small groups

10:30–11:00 Coffee break

11:00–12:00 Session III
11:00–11:20 New drugs in elderly patients
   Isabelle Ray-Coquard, France
11:20–11:40 Geriatric assessment and systemic therapy
   Gilles Freyer, France
11:40–12:00 Geriatric assessment and surgery
   Jalid Sehouli, Germany

12:00–13:00 Lunch break

13:00–13:30 Key-note lecture: Are angiogenesis inhibitors outdated
   Jonathan Ledermann, United Kingdom

13:30–15:00 Workshop: Design a clinical trial in elderly patients
   Workshop in 4 small groups
   ∆ Surgical trial
   ∆ First-line
   ∆ Frail patients
   ∆ Recurrent disease

15:00–15:05 Closure
